Verified.

Thanks and regards,
Gaurav Kasbekar

Dear Sir,

We(Arun Kumar: 173079004,Hitesh Kurapati:173079007), have done course project titled "Common Vulnerabilities in Web Applications & Spam URL classification using Machine Learning" as per course requirements. Please verify the following points.

- * Exposure of Top-10 vulnerabilities (like external entity attack, SQL injection, Cross site scripting, Broken access control, Broken Authentication etc) of OWASP Standard with practical implementation and proposed solutions.
- * Spam URL classification using Machine Learning Techniques like Logistic Regression, Naive Bayes, Linear Support Vector Machine, One-vs-Rest : 96.97%,96.65%,98.49%,99.17% accuracies respectively.

Thanks and Regards

Hitesh Kurapati
